I am an agile goalkeeper, with strong distribution skills with both feet, and high athletic ability. I am strong in the air when taking crosses due to my timing and upper body strength, and I have very good technique in 1v1 scenarios due to my flexibility.

I have a unique determination and work ethic, which has led to my experience in professional football in England, Spain and Gibraltar, often creating opportunities for myself through perseverance;

I am obsessed with improvement, which has led to the development of my 'Symmetrical Distribution'; the ability to hit all areas of the pitch, with all distribution techniques, with both feet.

I believe that my work ethic and technical ability would make me an asset to your football club, but my determination and desire for improvement will separate me from other players, and help your club achieve its goals.
